

WELDING DIRECT

The WD MIG200WD is an inverter-based MIG welding machine with added MMA .The MIG function allows you to weld with both Gas Shielded and Gasless wire applications. Easy stepless adjustment of voltage and wire feed make for easy setting of welding parameters giving excellent, professional welding results. The simple connection of the Spoolgun for the use of thin or softer wires that don't have the column strength to feed through standard MIG torches, such as aluminium wire. Added MMA welding capability delivers easy and high quality welding using electrodes, including cast Iron, stainless and low hydrogen.

MODEL	MIG200Gs		MIG200Gsv				MIG250GW3	
Power Supply Voltage(V)	1P~220/230/240±15%		1P~110/120/130/220/230/240±15%				3P~380±15%	
Frequency(HZ)			50/60					
			110		220
